Pollution Incident Response Management Plan

**Newcastle Rod Mill
Annex 1**

Annex 1 – Publicly available Information

This Annex has been prepared for the purposes of online publication of requirements relating to the site Pollution Incident Response Management Plan. It contains a direct reproduction of content drawn from the Pollution Incident Response Management Plan though has been modified to exclude personal information within the meaning of the Privacy and Personal Information Act 1998.

Contacting Relevant Authorities to Notify a Pollution Incident

Only complete Step 1 followed by Step 2 if there is an immediate threat to human health or property. If not, complete Step 2 only. All agencies in Step 2 must be contacted, regardless of incident type. For example, Fire and Rescue must be contacted even if there is no fire.

Step 1

Notification Record				
External Body	Phone Contact Details	Time/Date (of notification)	Name (Person notified)	Initial Advice / Comment
1. Emergency Services (Fire and Rescue, Police, Ambulance Services)	000 Only call 000 first if there is an immediate threat to human health or property			

Step 2 – Proceed with the following notifications in the order provided

2. EPA	131 555			
3. The Work Cover Authority	13 10 50			
4. The Local Authority (Newcastle City Council)	4974 2000			
5. Fire and Rescue NSW	1300 729 579			
6. InfraBuild Site Security	4935 4999			
7. The Ministry of Health: (Notification no longer mandatory.)	02 4924 6477 (diverts to John Hunter Hospital) Ask for Public Health Office on call.			

Communicating with neighbours and the Community

The occurrence of a pollution incident does not automatically trigger the need for neighbour or community notification. An assessment of the need to notify must be made based on the specific circumstances of the pollution incident, considering:

- Pollutant type.
- Prevailing winds.
- Height and magnitude of any emission.
- Direction of stormwater/tidal flow.
- Predicted fall-out locations, and
- Possible impacts to potential receptors

Potential pollution incidents which may trigger notification to neighbours and/or community and circumstances that may increase the potential impact to environment or human health are detailed in table 3.

Table 3 – Land uses within a 500m radius of the site

Direction	Owner/Occupier	Contact Details
North	InfraBuild Rod Mill	InfraBuild Ingall St Security 4935 4999
	Newcastle Coal Infrastructure Group (Grey coloured Coal Loader)	1800 016 304
Northeast	Hunter River – Newcastle Port Corporation	4929 3890
East	Stolt-Haven Terminals	0418 736 974
South	Residential	000
Southwest	Residential	000

	St Columban’s Primary School	0249 683315
	Fronitha Care Inc	0240 164160
	Mayfield Aged Care	0249 671060
West	InfraBuild Contistretch	InfraBuild Ingall St Security 4935 4999
	Austube Mills Newcastle	Austube Mills Security 4935 5739
	InfraBuild Mesh	InfraBuild Ingall St Security 4935 4999
Northwest	Newcastle Recycling Pty Ltd (SCE)	4949 2800
	InfraBuild NDC	InfraBuild Ingall St Security 4935 4999

2.6.2 Notification of Community

Implement this section where a need to notify has been determined and potential effects of the pollution incident are widespread and applicable to the general community.

InfraBuild has determined that the method to be deployed for the notification of the local community where required is the Emergency Alert system described in the ‘The City of Newcastle – Newcastle Local Disaster Plan (Displan) (2012)’.

Operation of the Emergency Alert system is managed by the local combat agency controller. Other methods of community notification may also be employed based upon an assessment of the circumstances by the combat agency controller.

InfraBuild has an obligation to identify relevant pollution incidents to the combat agency controller where those incidents pose, or may pose, an environment impact to the local community.
