

2022 ACRS Certification

Austube Mills supplies a comprehensive range of steel products manufactured to AS/NZS 1163 for use in the construction industry.

Mill test certificates for these products demonstrate that the product conforms to the requirements of the relevant Australian Standard. ACRS certification is confirmation from an independent authority that the mill has demonstrated capability to manufacture the products to the relevant Australian Standards and does so consistently.

All products supplied by Austube Mills that are covered by an ACRS Certificate are included in the 2022 Compendium of ACRS Certificates.
