Pollution Incident Response Management Plan

Newcastle Wire Mill
Annex 1

Annex 1 – Publicly available Information

This Annex has been prepared for the purposes of online publication of requirements relating to the site Pollution Incident Response Management Plan. It contains a direct reproduction of content drawn from the Pollution Incident Response Management Plan though has been modified to exclude personal information within the meaning of the Privacy and Personal Information Act 1998.

Contacting Relevant Authorities to Notify a Pollution Incident

Only complete Step 1 followed by Step 2 if there is an immediate threat to human health or property. If not, complete Step 2 only. All agencies in Step 2 must be contacted, regardless of incident type. For example, Fire and Rescue must be contacted even if there is no fire.

Step 1

Notification Record				
External Body	**Phone Contact Details**	Time/Date (of notification)	Name (Person notified)	Initial Advice / Comment
1. Emergency Services (Fire and Rescue, Police, Ambulance Services)	**000** Only call 000 first if there is an immediate threat to human health or property			

Step 2 – Proceed with the following notifications **in the order provided**

2. EPA	**131 555**			
3. The Work Cover Authority	**13 10 50**			
4. The Local Authority (Newcastle City Council)	**4974 2000**			
5. Fire and Rescue NSW	**1300 729 579**			
6. InfraBuild Site Security	**4935 4999**			
7. The Ministry of Health: (Notification no longer mandatory.)	**02 4924 6477** (diverts to John Hunter Hospital) Ask for Public Health Office on call.			

2.6.1 Notification of Immediate Neighbours

Implement this section where a need to notify has been determined and:

- potential effects of the pollution incident are considered to be localised to immediate site neighbours; or
- potential effects of the pollution incident are considered to be widespread and applicable to the general community.

The site situated adjacent to the Hunter River at the north end of Ingall Street in Mayfield. The closest residential area is located south of the Industrial Highway Mayfield and includes schools and an aged care facility.

Table 3 lists neighbours immediately adjacent to the **Infra**Build Newcastle Wire Mill site, provided to assist in the effective communication of issues which extend past the site boundary.

2.6.2 Notification of Community

Implement this section where a need to notify has been determined and the potential effects of the pollution incident are widespread and applicable to the general community.

InfraBuild has determined that in the event of an emergency which has the potential to affect the residential area, communication to residents will occur via the Emergency Alert System managed by local emergency services. The Emergency Alert System sends messages to landlines and mobile phones in the area concerned as nominated by Emergency Services.

Other methods of community notification may also be employed based upon an assessment of the circumstances by the emergency agency controller.
